AN URGENT CALL FOR PEACE

WE SAY NO!

We, the undersigned,

as citizens and residents of the National Capital Region, call on our national political leaders to stand up for peace and to refuse any alliance with those who would make war on the people of Iraq. We ask all like-minded people to join us in this call. We cannot be complicit in adding hundreds of thousands more Iraqi civilian casualties to the dreadful catalogue of suffering and death already imposed by more than a decade of sanctions. And we cannot afford to keep silent.

In the name of humanity, we reject the U.S. call for war. We reject the weapons of war wherever they are, their manufacture, their sale, their stockpiling and their use. Only unhindered international inspections under the auspices of the United Nations can lead to the elimination of the weapons of mass destruction that currently exist in countries around the world. Only an enforceable international treaty to cease the manufacture and sale of these weapons can eliminate the threat of war for good.

We say no to the continuing massive diversion of resources to war and to the machinery of war. Drought and epidemics are destroying the continent of Africa, and millions who face death there and elsewhere could be saved by a fraction of these resources. We say no to creating more resentment and hatred among the peoples of the Middle East. We say no to the destruction of the environment that wars inevitably cause. We say no to Canadian involvement in superpower politics that are all about oil and expansion, not human rights and democracy.

But we say yes to peace. Therefore, we urge the Government of Canada, and, in particular Prime Minister Jean Chretien to actively object to any aggression against the people of Iraq. Will you join us? Contact your Member of Parliament, and Prime Minister Jean Chrétien. Tell them to oppose a war against Iraq, and any involvement in it. Join the millions of people around the world who are making their voices heard. Together, we stand against war. Together we can build a better world.
