

ZUCCHINIS

NOT BOMBS

FOR THE STARVING PEOPLE OF AFGHANISTAN!

The Afghan people are not our enemy. But they are hungry.

It's time for food, not bombs.

Dear Mr. MacKay,

There is a humanitarian crisis in Afghanistan. Canadian and Nato military offensives have forced civilians to flee their villages. They lack food and shelter. CIDA is ineffective in helping them.

I urge you to bring Canada's troops home immediately and to seek dialogue and peaceful solutions to the crisis in Afghanistan. Provide food for starving villagers.

The billions you are spending to fight there would be far better spent on peaceful conflict resolution and meeting the pressing needs of the Afghan people for food.

You can learn more about the importance of zucchini at www.homesnotbombs.ca. You can print more coupons (to get more zucchinis) at www.nowar-paix.ca/zucchini.

Mr. Mackay:
Please redeem your coupon below for 1 zucchini and send it to the people of Afghanistan on the next plane headed that way! It would be far better to send this phallic symbol than the phallic symbols - missiles and mortar rounds - that you are currently sending.
